Niranjan Ravichandran
iOS Engineer

niranjanrav@gmail.com | New York | 628-777-8256

Education:

- **Master of Science (Computer Science)**   *Aug 2015 – Dec 2016*
  University of North Carolina at Charlotte - GPA 3.9
- **Bachelor of Technology (Information Technology)**   *Aug 2009 – May 2013*
  Anna University - CGPA 8.0

Skills:

Languages: Swift**,** Objective-C, Java, JavaScript, Shell
Tools: Git, Docker, Fastlane, Jenkins, Bazel
Frameworks: XCTest, XCUITest, KIF, Vapor

Work Experience:

- **Veea Inc | iOS Engineer**   *Jan 2017– Present*
  Built a *payment* framework with ISO and CITCON processing (VeeaPay) in swift, which is currently used across products at Veea. Built the core *search* feature on iOS for the consumer platform. Set up CI/CD for all iOS apps using *Fastlane* and *Jenkins*. Independently designed, architected and built an iOS app(VeeaHub manager). Lead effort within the team for feature development and took ownership of the consumer facing product(Veea - Go Places). Contributed to development of core features for merchant facing app(VeeaConnect). Represented Veea in trade shows like NRF(*National Retail Federation*) and NRA(*National Restaurant Assoiciation show*).
- **UNC Charlotte | Graduate Research Assistant**   *Oct 2015 – Dec 2016*
  Built native iOS applications to aid research in the field of health care. The goal of the apps were to replace traditional intervention/counselling methods with mobile phones.
- **Allscripts | iOS Engineer Intern**   *June 2016 – Aug 2016*
  Worked on porting EHR*(Electronic Health Record)* mobile application to iPad. Reduced the overall launch time of the application. Optimized patient search feature within the app.
- **NTT DATA | Software Engineer**   *Jan 2014 – Jan 2015*
  Worked on core feature for BSS/OSS system; Responsibilities include feature ownership, testing, *firefighting and bug tracking*.

Projects:

- **VeeaHub Manager | Veea Inc**   *Dec 2018 – Present*
  A mobile app to configure and set up *VeeaHubs* for development and deployment.
  Languages: Swift, Objective-C
- **Mauritius Explored**   *June 2015 – May 2016*
  A photo based iOS application to guide tourists to explore beaches, mountains and more in Mauritius.
  *Languages***:** *Swift, JavaScript*
- **mHealth | UNC Charlotte**   *Oct 2015 – May 2016*
  A mobile application to guide students to have a safer drinking experience with an attempt to replace traditional counselling and face-to-face motivational intervention methods.
  *Language***:** *Swift*
- **Pro EHR Mobile | Allscripts**   *June 2016 – Aug 2016*
  An iPad app for healthcare providers to remotely control their Allscripts EHR from any location.
  *Language***:** *Swift, Objective-C*
